EDUCATION

Columbia University, School of Engineering (SEAS) **New York, NY**

Bachelor of Science in Mechanical Engineering, Minor in Aerospace *Expected* May 2028

- **Relevant Coursework:** Intro to Applied Mathematics (ODE & Linear Algebra), Foundations of Data Science, Principles of Economics, Multivariable Calculus for Engineers, Data Structures in Java, Intro to Aerodynamics, Heat Transfer, Dynamics & Vibrations, Intro to Mechanics of Fluids
- **Formula Student Team (FSAE):** Designed and validated aerodynamic components for Columbia FSAE electric race car using SolidWorks (CAD and FEA) and Ansys (CFD), collaboration with a team of 100+ engineers to optimize performance and ensure manufacturability
- **Varsity Lightweight Rowing**: Competed as a Division I varsity lightweight rower, developing teamwork and discipline while balancing a rigorous course load

Brunswick School **Greenwich, CT**

GPA: 4.0, SAT: 1520, High Honor Roll May 2023

- **Rocket Club**: Founded Brunswick's rocketry club; held weekly meetings where we designed, manufactured, and tested homemade rockets including building a flight computer from scratch
- **Brunswick Rowing (BSBC):** Competed in various boat classes and race distances winning regattas in the single as well as the eight including Brunswick's first NEIRA championship

EXPERIENCE

GE Vernova **Bangor, Maine**

Gas Power & Supply Chain Co-op June 2026 – Present

- Automated visual reporting for CMM inspection data removing the need for repetitive manual PowerPoints saving 5-10 hours of labor per week while increasing throughput and consistency
- Created a Linux based serial to network bridge to upload CNC machine data to a file share and print over Wi-Fi removing our reliance on increasingly expensive and outdated dot matrix printers
- Coordinated the rollout of MFA devices to 200+ employees including one on one walkthroughs

GTS Securities **New York, NY**

IT Intern June 2025 – October 2025

Quantitative trading firm and NYSE Designated Market Maker

- Supported IT infrastructure across equities, ETFs, futures, and FX trading systems
- Created holistic IT inventory of all assets to determine requirements for a 140 person office relocation given new setups resulting in $100,000+ of monitors and peripherals being ordered
- Led the setup of over 50 personal workstations, directing two contractors to ensure efficiency

VSculls Rowing **Old Greenwich, CT**

Head Assistant Coach June 2023 – August 2024

- Maintained safe practices for groups of 30+ rowers while helping them achieve technical proficiency
- Coordinated practice plans, regatta logistics, and client communication, ensuring smooth internal operations and continued growth of the VSculls program

ADDITIONAL INFORMATION

Software: Python (NumPy, Pandas), Linux/bash, Excel, LaTeX, SolidWorks, Fusion 360, and Ansys
Technical skills: Numerical simulation, Optimization, Data visualization, and Machine learning
Interests: Investing, Formula 1, Chess, Guitar, Transportation infrastructure, and Aerospace systems
